

CONTRIBUTION TO STRATEGY 2030 OPERATIONAL PRIORITIES

OP No.	Corporate Results Framework Indicators (Outputs and Outcomes)	Expected Value	Methods and Comments
1.2.2	Models for business development and financing established or improved (number)	2	The business models and/or efficient feedstock supply chain mechanisms will be developed based on two types of feedstocks: (i) agriculture residues; and (ii) municipal solid wastes)
2.3.1	Women with strengthened leadership capacities (number)	100	The number of women, who will participate in vocational training and gender awareness workshop, is estimated.
2.3.2	Measures on gender equality supported in implementation (number)	2	The gender mainstreaming design for the biofuel value chain will be adopted by two oil companies.
3.1.5	Low-carbon solutions promoted and implemented (number)	21	Innovative technologies with low-carbon solutions will be promoted for advanced biofuel plants, including 4 for bioethanol, 11 for bio-CNG, and 6 for biodiesel plants.
3.3.2	Solutions to enhance pollution control and resource efficiency implemented (number)	2	To enhance pollution control and resource efficiency, effective solutions will be based on two interventions: (i) reduction of crop burning; and (ii) promotion of appropriate municipal solid waste disposal treatment.
6.1.2	Measures supported in implementation to improve capacity of public organizations to promote the private sector and finance sector (number)	2	TA will support the piloting use of new instruments for efficient financing on biofuel business to promote private and finance sector. The new financing scheme will be adopted by at least two financial institutions.

CNG = compressed natural gas, OP = operational priority, TA = technical assistance.
