Statement of Work

Project Title: Promotion of Homestays and Community Eco-camp as model community-based ecotourism in Medak Landscape

1.0 Background and Rationale

Forest-PLUS 2.0: forest for water and prosperity, is a joint program of the United States Agency for International Development (USAID) and the Ministry of Environment, Forest and Climate Change (MoEFCC). The contract for Forest-PLUS 2.0 was awarded by USAID to Tetra Tech on December 4, 2018. The purpose of the contract is to provide **technical assistance** that supports the Government of India (GoI) and other stakeholders to manage forests as important components of a broad-based, inclusive and sustainable approach to economic growth that meets local needs and addresses global environmental challenges.

The overall goal of the project is to improve management of targeted landscapes in three states in India to enhance ecosystem services and increase inclusive economic opportunities.

The targeted landscapes are:

- a) Thiruvananthapuram Forest and Wildlife Divisions in Kerala (Thiruvananthapuram and Kollam Districts),
- b) Medak Forest Division in Telangana (Medak District) and
- c) Gaya Forest Division in Bihar (Gaya and Jehanabad Districts).

Forest-PLUS 2.0 has already established partnership with the respective State Forest Departments for implementation of different interventions. The principal objectives of the Program are:

1. To strengthen ecosystem-based management of forest landscapes
2. To factor ecosystem services into management of forest landscapes
3. To increase economic opportunities from improved landscape management

Under its efforts for creating inclusive economic opportunities, Forest-PLUS 2.0 has been working with the respective State Forest Departments to strengthen community-based ecotourism in all three target landscapes to incentivize the local communities to contribute to the conservation of forest and critical biodiversity habitats through different eco-enterprises. Forest-PLUS 2.0 has been implementing Agroforestry and Community-Based Ecotourism value chain related interventions in Medak landscape.

Forest-PLUS 2.0 intends to promote homestays and eco-camps as community enterprises in Pocharam Wildlife Sanctuary, Medak, Telangana to provide eco-friendly accommodations to visitors with minimal carbon footprint, create an opportunity for visitors to understand the uniqueness of the ecosystem and to mobilize visitors to contribute to forest conservation.

Forest-PLUS 2.0 proposes to work with a subcontractor to test and demonstrate the viability of this conservation approach and eco-enterprise. Lessons learned from development of this eco-enterprise will inform further development of similar eco-enterprises in the landscape.

2.0 Objectives of the assignment

There is a growing demand for homestays and community eco-resorts by travellers seeking an unconventional approach to travel and exploration. Homestays only represent 13 percent of accommodations in the top 50 emerging tourism destinations in India as per a study done in 2015. As such, this presents a great opportunity for local communities to expand their involvement in ecotourism and forest conservation activities. In addition, these enterprises have great potential to engage women and youth. The proposed demonstration project will create an opportunity for eco-travellers to get actively involved in different nature conservation activities.

The basic objectives of this SOW are to introduce Homestays and Community Eco-camp as an eco-enterprise in targeted landscapes; emphasize institution development and capacity building; and facilitate linkages with public and private sector agencies to leverage resources for scaling up and marketing.

The Subcontractor will assist targeted communities to set up homestays and eco-camps. This will lead to a model community-managed ecotourism venture in Pocharam Wildlife Sanctuary area, run in collaboration with different public and private sector agencies. The Subcontractor will carry out necessary assessments and prepare a detailed project report. The Subcontractor will explore possibilities of bringing in investments and grants from public and private sector agencies to set up the model.

1. CERTIFICATION REGARDING RESPONSIBILITY MATTERS.

As prescribed in 9.104-7(a), insert the following provision:

Certification Regarding Responsibility Matters (AUG 2020)

(a) (1) The Offeror certifies, to the best of its knowledge and belief, that –

(i) The Offeror and/or any of its Principals –

(A) Are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(B) Have not within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, state, or local) contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property; and

(C) Are not presently indicted for, or otherwise criminally or civilly charged by a governmental entity with, commission of any of the offenses enumerated in paragraph (a)(1)(i)(B) of this provision.

(D) Have not within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,000 for which the liability remains unsatisfied.

(1) Federal taxes are considered delinquent if both of the following criteria apply:

(i) *The tax liability is finally determined.* The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(ii) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(2) *Examples.*

- (i) The taxpayer has received a statutory notice of deficiency, under I.R.C. § 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency.  - (ii) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. § 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.
 - (iii) The taxpayer has entered into an installment agreement pursuant to I.R.C. § 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.
 - (iv) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).
- (ii) The Offeror has not, within a three-year period preceding this offer, had one or more contracts terminated for default by any Federal agency.
- (2) "Principals," for the purposes of this certification, means officers; directors; owners; partners; and, persons having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a subsidiary, division, or business segment, and similar positions).

- (b) The Offeror shall provide immediate written notice to the Contracting Officer if, at any time prior to contract award, the Contractor learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
- (c) A certification that any of the items in paragraph (a) of this provision exists will not necessarily result in withholding of an award under this solicitation. However, the certification will be considered in connection with determination of the Offeror's: responsibility. Failure of the

Offeror to furnish a certification or provide such additional information as requested by the Contracting Officer may render the Contractor non responsible.

- (d) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the certification required by paragraph (a) of this provision. The knowledge and information of an Offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
- (e) The certification in paragraph (a) of this provision is a material representation of fact upon which reliance was placed when making award. If it is later determined that the Offeror knowingly rendered an erroneous certification, in addition to other remedies available to the Government, the Contracting Officer may terminate the contract resulting from this solicitation for default.
